Four (4) men with 2 trucks and 2 large mowers donated many hours of field work on 19-23 May to accomplish our much needed land clearing goals. It is estimated that \$ 14,000 worth of work was donated by these men on behalf of SCI-REMC to prepare our designated “Pollinator Habitat” for fall seeding. Randy Brumfield has agreed to donate his time this fall to perform final prep of the cleared land before seeding. A Grant application has been completed and submitted to the office of the Brown County Soil & Water Conservation District with hopes of receiving up to \$7,500 grant money to fund seed purchase for the Pollinator Habitat project.
